Author Index

ABRAHAMS JP, WALLACH HF, and DIVENS S: Behavioral improvement in long-term geriatric patients during an age-integrated psychosocial rehabilitation program, 218
ALDERMAN MM: see Seligmann AW, 135
ALEXANDER LL: see Chawla K, 519
ALEXANDER WJ, AVENT CK and BAILEY WC: Simple primary tuberculosis in an elderly woman, 123
ALVAREZ C: see Raskind M, 459
ANDERSON J: see Das SK, 27
ANGERS J: see Ching N, 491
AVENT CK: see Alexander WJ, 123

BAILEY WC: see Alexander WJ, 123
BAKER H, FRANK O, THIND IS, JASLOW SP and LOURIA DB: Vitamin profiles in elderly persons living at home or in nursing homes, versus profile in healthy young subjects, 444
BANSAL S, DEVANARYANAN P and NAPODANO RJ: Bronchopleural fistula after extrapleural pneumonolysis, 378
BARNES GM: Alcohol use among older persons: findings from a Western New York State general population survey, 244
BARRON JJ: see Garetz FK 235
BARRON PB: see Garetz FK, 235
BARTECCHI CE: Emergency transvenous (subclavian) cardiac pacing in elderly patients, 208
BARTUS RT: Four stimulants of the central nervous system: effects on short-term memory in young versus aged monkeys, 289
BEIRNE GJ: see Varanasi UR, 407
BELL CJ: see Naccarto DV, 34
BERGER M, RETHY C and GOLDBERG E: Unsuspected hypertrophic subaortic stenosis in the elderly diagnosed by echocardiography, 178
BERMAN ND: The elderly patient in the coronary care unit. I. Acute myocardial infarction, 145
—The elderly patient in the coronary care unit. II. Incidence and treatment of arrhythmias, 203
BJORK AE: see Garetz FK, 235
BLAZER DG II and HOUPT JL: Perception of poor health in the healthy older adult, 330
BLUM M and ELIAN I: The vaginal flora after natural or surgical menopause, 395
BOILLAT J: see Müller HF, 9
BONER G: see Mukamel E, 403
BORRA S: see Kleinfeld M, 156
BRINK TL, BRYANT J, CATALANO ML, JANAKES C and OLIVEIRA C: Senile confusion: assessment with a new stimulus recognition test, 126
BROOKS HL: see Tresch DD, 421
BRYANT J: see Brink TL, 126
BURIAN E: see Yesavage JA, 80

CASIMIR M: see Kleinfeld, M, 156
CASTANEDA TA: see Gambrell RD, 389
CATALANO ML: see Brink TL, 126
CHAWLA K, CHAWLA SK and ALEXANDER LL: Familial achalasia of the esophagus in mother and son: a possible pathogenetic relationship, 519
CHAWLA SK: see Chawla K, 519
CHEBOTAREV DF and SACHUK NN: A social policy directed toward the health and welfare of the aged in the Soviet Union, 49
CHEKRYN J and ROOS LL Jr: Auditing the process of care in a new geriatric unit, 107
CHING N, GROSSI C, ZURAWINSKY H, JHAM G, ANGERS J, MILLS C and NEALON TF Jr: Nutritional deficiencies and nutritional support therapy in geriatric cancer patients, 491
CLARK ANG and MANKIKAR GD: d-Amphetamine in elderly patients refractory to rehabilitation procedures, 174
CLAYMON C: see McCuan ER, 355
CLIMO JJ: see Vener AM, 83
COHEN CI and SOKOLOVSKY J: Health-seeking behavior and social networks of the aged living in single-room occupancy hotels, 270
COLE M: see Müller, HF, 9
CONANT M: see Holmes FF, 241
CORNBLETH C: see Cornbleth T, 522
CORNBLETH T and CORNBLETH C: Evaluation of the effectiveness of reality orientation classes in a nursing home unit, 522
CROOK T: Central-nervous-system stimulants: appraisal of use in geropsychiatric patients, 476
—, FERRIS S and McCARTHY M: The misplaced-objects task: a brief test for memory dysfunction in the aged, 284
CULEBRAS A: see Feldman RG, 1
CULLEN SI: Topical fluorouracil therapy for precancers and cancers of the skin, 529

DAHLSTEN J and SHANK JC: Chronic and acute disease problems in rural nursing home patients, 112
DAS SK, ANDERSON J and KATARIA MS: Geriatric medicine; model for computer-oriented research analysis, 27
DASTOOR DP, KLINGNER A, MÜLLER HF and KACHANOFF R: A psychogeriatric assessment program. V. Three-year follow-up, 162
—: see Müller HF, 9
DAVIS JL: see Lacko AG, 212
DAVIS TK: see Seligmann AW, 135
DeLUCCHI MR: see Frost JD Jr, 541
DEVANARYANAN P: see Bansal S, 378
DIAMOND HS: see Dimant J, 58
DICKSTEIN ES: see Loeser WD, 558
DIMANT J: Rheumatoid arthritis in the elderly, presenting as polymyalgia rheumatica, 183
—, GINZLER EM, SCHLESINGER M, DIAMOND HS and KAPLAN D: Systemic lupus erythematosus in the older age group: computer analysis, 58
DIVENS S: see Abrahams JP, 218
DYE CJ and SASSENRATH D: Identification of normal aging and disease-related processes by health care professionals, 472

EBERHARDT RC and ROBINSON LA: Clinical pharmacy involvement in a geriatric health clinic at a high-rise apartment center, 514
ELIAN I: see Blum M, 395
ELIAS-JONES A: see Rai GS, 317
ELKOWITZ EB: Hypertension in the elderly: review of therapy with a hydroflumethiazide-reserpine combination, 507
ENDO T: see Kawabe T, 152
—: see Yamada T, 398, 500
ESPOSITO AL: see Gleckman RA, 345

FELDMAN RG, CULEBRAS A and SCHMIDEK HH: Paget's disease and the nervous system, 1
FELDMAR G: see Kurucz J, 91, 225
FELKINS BJ: see Levenson AJ, 536
FERRIS S: see Crook T, 284
FINNERTY BA: see Rao PN, 469
FLOYD RA: see Segal JL, 117
FRANK DH: see Heggers JP, 511
FRANK O: see Baker H, 444
FREEDMAN ML: see Htoo MSH, 547
FROST JD Jr and DeLUCCHI MR: Insomnia in the elderly: treatment with flurazepam hydrochloride, 541

GAMBRELL RD, MASSEY FM, CASTANEDA TA, UGENAS AJ and RICCI CA: Reduced incidence of endometrial cancer among postmenopausal women treated with progestogens, 389
GARETZ FK, BARRON JJ, BARRON PB and BJORK AE: Efficacy of nylidrin hydrochloride in the treatment of cognitive impairment in the elderly, 235
GARLOW W: see Holmes FF, 241
GESSNER JE: see Reed JW, 325
GINZLER EM: see Dimant J, 58
GLECKMAN RA and ESPOSITO AL: Bacterial pneumonia in the elderly: a reappraisal of conventional therapy, with a note on cefamandole, 345
GOETZ CG and WEINER WJ: Huntington's disease: current concepts of therapy, 23
GOLDBERG E: see Berger M, 178
GOLDSTEIN SE: Depression in the elderly, 38
GREENBLATT DJ: Reduced serum albumin concentration in the elderly: a report from the Boston Collaborative Drug Surveillance Program, 20
GREENBLATT RB, NATRAJAN PK and TZINGOUNIS V: Role of the hypothalamus in the aging woman, 97
—, NEZHAT C, ROESEL RA and NATRAJAN PK: Update on the male and female climacteric, 481
GROSS CM: see Tresch DD, 421
GROSSI C: see Ching N, 491
GRYFE CI: Reasonable expectations in geriatric rehabilitation, 237

HALE WE, MARKS RG and STEWART RB: Drug use in a geriatric population, 374
—: see Stewart RB, 552
HALL GG and STARKMAN MN: Incorporation of gerontology into medical education, 368
HEARNE E III: see Holmes, FF, 241
HEGGERS JP, ROBSON MC, FRANK DM and KO F: Rapid slide technique with dextranomer beads for bacteriologic assessment of wounds in the elderly; comparison with quantitative biopsy method, 511
HERLIN S: see Raskind M, 459
HERR HW: preservation of sexual potency in prostatic cancer patients after ^{125}I implantation, 17
HERSCH EL: Development and application of the Extended Scale for Dementia, 348
HISAMICHI S, SASAKI R, SUGAWARA N, YANBO T and YAMAGATA S: Stomach cancer in various age groups (Japan) as detected by gastric mass survey, 439
HOFLAND BF: see Smyer MA, 263
HOFMEISTER R: see Ingman SR, 320
HOLLISTER LE: see Yesavage JA, 80

Subject Index

ABDOMINAL operations: see Surgery
ACHALASIA of esophagus in mother and son; pathogenetic relationship?, 519
ACUTE ILLNESS: see Medical; Hospitals
ACYLTRANSFERASE: see Enzymes
ADENOSINE MONOPHOSPHATE excretion in essential hypertension, 193
ADVERSE drug reactions; see Drugs
ADRENAL: see also Hormones (steroids); Endocrine
—adrenal response re homeostasis, 364
—adrenergic factors in essential hypertension, 193
ADRENERGIC system: see Brain (neurotransmitters); Adrenal
AGE: see also Geriatrics
—age groups (Japan); stomach cancer in, as detected by gastric mass survey, 439
—age groups, various; comparison of surgical mortality rates (1951–77), 433
—age-related changes in endocrine and renal function in essential hypertension, 398
—age-related changes in rat and primate cholesterol metab., 212
—aged dementia patients; scores on the Extended Scale for Dementia, 348
—aged nursing home patients; regulation of bowel function by a laxative/softener prep., 464
—aged woman; fistula 40 yrs. after extrapleural pneumonolysis, 378
—aging, mortality, and the Type A (coronary-prone) behavior pattern, 251
—American Geriatrics Society: see American Geriatrics Society
—and history of hypertension re idiopathic hypertrophic subaortic stenosis, 43
—and hormonal changes re severity of essential hypertension, 193
—and Paget's disease, 1
—and palatal sensitivity to touch, 319
—arteriosclerosis; atherosclerosis: see also Vascular system; Heart
—cancer: see also Cancer
—cardiovascular disease: see also Heart; Vascular system
—cerebrovascular disease: see also Brain; Vascular system
—chronic brain syndrome; prosopo-affective agnosia, 91
—chronic brain syndrome: see also Mental; Brain
—climacteric, male and female; update, 481
—decubitus and stasis ulcers treated topically with povidone-iodine, 302
—drinking patterns by age groups, in a State survey, 244
—economics: see also Socioeconomic
—elderly ambulatory population; epidemiology of hyperuricemia in, 552
—elderly disoriented patients; prosopo-affective agnosia as symptom of cerebral organic disease, 225
—elderly man; occult renal damage due to b. prostatic hypertrophy, 403
—elderly outpatients with late paraphrenia; fluphenazine ethanate parenterally vs. halidoperidol orally, 459
—elderly patients; corneal reflex in, 317
—elderly patients; emergency transvenous cardiac pacing, 208
—elderly patients with urinary-tract infections; carbenicillin indanyl Na vs. trimethoprim/sulfamethoxazole, 222
—elderly vs. young patients; hyperthyroidism in, 152
—elderly woman; simple primary tuberculosis in, 123
—geriatric application of ECG treadmill testing; office setting, 337
—geriatric cancer patients; nutritional deficiencies and nutr. support therapy, 491
—geriatric care; an alternative comprehensive model, 279
—geriatric comprehensive educational experience, 320
—geriatric health clinic at high-rise center; clinical pharmacy in, 514
—geriatric hypertension-screening population; drug use in, 374
—geriatric medicine; model for computer-oriented analysis, 27
—Geriatric Patients; EEG and clinical changes during ergot alkaloid (Hydergine) therapy, 198
—geriatric patients, methenamine-treated; appraisal of ascorbic acid as urine acidifier, 34
—geriatric patients; skin O_2 tension as function of imposed pressure, re decubitus ulcers, 298
—geriatric rehabilitation; reasonable expectations, 237
—geriatric short-term memory as reflected in effects of CNS stimulants in young vs. aged monkeys, 289
—geriatric unit; auditing the care process in, 107
—geriatrics; gerontology: see also Geriatrics
—gerontology; incorporation into medical education, 368
—geropsychiatric patients; appraisal of use of CNS stimulants for, 476
—geropsychiatric patients; behavioral improvement during age-integrated psychosocial program, 218
—in relation to hyponatremia in a chronic disease facility, 156
—influence of age on symptoms of systemic lupus erythematosus, 58
—long-term care facilities; medical care evaluation, 62
—medical care: see also Medical; Medicine; Mental; Health; Hospitals; Nursing homes; Physicians; Rehabilitation
—mental disorders: see also Mental
—mother (age 78) and son (age 52) with achalasia of esophagus; possible pathogenetic relationship, 519
—normal aging vs. disease processes; identification by health care professionals, 472
—nursing home patients; avoidance of diagnostic errors on admission, 558
—nursing homes and hospitals in the Netherlands; modern ideas re organization of services, 258
—nursing homes; sexuality in, 73
—nursing homes: see also Nursing homes
—old people; attitudes of health workers toward, 186
—older adults and the Life Satisfaction Index-Form A, 418
—older adults, health; perception of poor health among, 330
—older adults, institutional; future orientation, 130
—older patients and the use of topical fluorouracil for precancers and cancers of skin, 529
—older persons in Western New York State survey; alcohol use among, 244
—postmenopausal women; reduced incidence of endometrial cancer when treated with progestogens, 389
—postmenopausal women; the vaginal flora after natural or surgical menopause; relation to infections, 395
—psychogeriatric assessment program. V. 3-year follow-up, 162
—rehabilitation: see also Rehabilitation; Mental; Socioeconomic
—retired persons; drug usage and health characteristics, 83
—retirement: see also Retirement; Mental (adjustment problems)
—rural nursing home patients: chronic and acute disease problems, 112
—senile confusion; new stimulus recognition test, 126
—senile dementia; EEG and clinical effects of amantadine, 9
—senile dementia; 6-mg vs. 3-mg dosage of dihydroergotoxine, 80
—skilled nursing home patients; prescribing of drugs, 117
—stroke: see also Brain; Mental
—the aged; a structural model of functional capacity, 314
—the aged; cancer in; autopsy study of 940 cancer patients (Japan), 307
—the aged; cardiovasc. side effects of long-term tricyclic antidepressant therapy, 231
—the aged; contributions of the long-term care facility to medical care of, 410
—the aged in the Soviet Union; social policy re health and welfare, 49
—the aged living in SRO hotels; health-seeking behavior and social networks, 270
—the aged vs. the young; misplaced-objects task for memory dysfunction, 284
—the aging woman; role of hypothalamus-pituitary, 97
—the elderly; active rosette-forming T cells in, 170
—the elderly; amphetamine for those refractory to rehab. procedures, 174
—the elderly and the Short Portable Mental Status Questionnaire; validity study, 263
—the elderly; bacteriologic assess. of wounds by rapid slide technique (dextranomer beads) vs. biopsy method, 511
—the elderly; depression; medical views and historical notes, 495
—the elderly; depression; treatment, 38
—the elderly; erythrocyte parameters in; argument against new geriatric normal values, 547
—the elderly; erythrocyte sed. rate and disease, 382
—the elderly; hospitalization for acute illness, 415
—the elderly; importance of a regular source of medical care, 555
—the elderly; improving the quality of life for (Senator Mathias' address to the AGS), 385
—the elderly in health-related facilities; vitamin and mineral prescriptions, 425
—the elderly living at home or in nursing homes; vitamin profile vs. that in healthy young subjects, 444
—the elderly; mitral valve prolapse in; echocardiography, 421
—the elderly; model for prevention of psychiatric recidivism, 536
—the elderly; myocardial infarction in the diff. diagnosis of dementias, 104
—the elderly patient in the coronary care unit.

I. Acute myocardial infarction, 145
—the elderly patient in the coronary care unit. II. Incidence and treatment of arrhythmias, 203
—the elderly; reduced serum albumin, 20
—the elderly; rheumatoid arthritis vs. polymyalgia rheumatica, 183
—the elderly; "spontaneous" atheroembolic disease as cause of renal failure, 407
—the elderly; systolic hypertension in a defined community; treatment, 135
—the elderly; unsuspected hypertrophic subaortic stenosis in, 178
—the elderly with acute leukemia; survival, 241
—the elderly with bacterial pneumonia; cefamandole, 345
—the elderly with cognitive impairment; treatment with nylidrin HCl (vasodilator), 235
—the elderly with e. hypertension; effects of antihypertensive drugs on left vent. hypertrophy, 500
—the elderly with e. hypertension; hydroflumethiazide/reserpine therapy, 507
—the elderly with insomnia; treatment with flurazepam HCl, 541
—the isolated elderly; counseling, 355
—the urban elderly; cultural and sex differences in dietary patterns, 357
—two elderly patients; simultaneous autoimmune disease and malignancy, 455
—veterans in nursing home unit; eval. of reality orientation classes, 522
—woman aged 84 with lower-extremity quadriprostheses; rehabilitation, 469
—young and old; erythrocyte folate levels in, 451
AGING: see Age; Geriatrics
AGNOSIA, prosopo-affective: see Brain; Mental
ALBUMIN: see also Protein
—serum albumin reduction in the elderly, 20
ALCOHOL; ALCOHOLISM: see also Mental
—drinking patterns by age, sex, marital status and employment status, 244
—usage among noninstit. retired persons, 83
—use among older persons; survey of general population in Western New York State, 244
ALDOSTERONE: see Hormones; Blood
ALZHEIMER'S DISEASE: see Mental; Brain
AMANTADINE (Symmetrel): see Drugs
AMERICAN GERIATRICS SOCIETY
—Annual Meeting (36th), April 1979, Washington, DC
—announcements of: see advertising section (Jan.-Mar.) and text AGS pages 48, 144, 192
—Annual Meeting (37th), April 1980, Chicago, IL
—announcements of: see advertising section (July-Dec.) and text AGS pages 336, 432, 480, 528
—call for papers: see advertising section (July-Oct.) and text AGS page 480
—Awards, Gold Medal:
—Edward B. Allen Award (none in 1979)
—Edward Henderson Lecture Award (Robert B. Greenblatt, MD, recipient in 1979, p 525)
—Malford W. Thewlis Award (Ewald W. Busse, MD, recipient in 1979, p 526)
—Willard O. Thompson Award (none in 1979)
—Award, Student; Edward Henderson Memorial (Richard R. Shannon, recipient in 1979, p 527)
—Continuing Education Programs co-sponsored by AGS; announcements of (details in AGS Newsletter), 48, 144, 192, 480, 528
—Editorial Board Members, JAGS, listed on Journal masthead page each month (see also AGS pages 336, 432)
—Journal of: see Journal of the American Geriatrics Society
—membership in AGS: see information on masthead page each month
—minutes of meetings of Board of Directors and AGS members: see Reports (below)
—news items about Am. Geriatrics Society (separate from the Newsletter): see AGS page at end of text (various months), 48, 144, 192, 336, 432, 480, 528
—Newsletter (monthly): contains detailed announcements about AGS and other meetings; programs of AGS Annual Meeting; and various items of interest to workers in the field of geriatrics
—nominations for Officers and Directors, each year: see advertising section, March issue.
—Officers and Board of Directors (1979–80), 336
—reports of AGS meetings:
—Board of Directors, 139, 140, 143
—members of AGS, 142
AMITRIPTYLINE: see Drugs (tricyclic antidepressants)
d-AMPHETAMINE: see Drugs
ANALGESICS: see Drugs
ANDROGENS: see Hormones; Testis
ANEMIA: see Blood
ANESTHESIA: see Surgery
ANGINA PECTORIS: see Heart, disorders
ANGIOGRAPHY: see Vascular system
ANGIOTENSIN: see Kidney (renin); Vascular system
ANNOUNCEMENTS: see American Geriatrics Society; News and Notices
ANTIBIOTICS: see Drugs; Infections
ANTICHOLINERGIC agents: see Drugs
ANTICOAGULANTS: see Drugs
ANTIDEPRESSANTS: see Drugs; Mental (depression)
ANTIDIURETIC HORMONE (ADH): see Hormones
ANTI-INFLAMMATORY drugs: see Drugs; Bones and Joints (arthritis)
ANTINUCLEAR ANTIBODY: see Immunology
ANTIPSYCHOTIC drugs: see Drugs; Mental
AORTA: see Vascular system
APHASIA: see Brain (stroke); Vascular system (stroke); Rehabilitation
ARLIDIN: see Drugs (nylidrine)
ARRHYTHMIAS, cardiac: see Heart
ARTERIAL; ARTERIES: see Vascular system; Heart
ARTERIOSCLEROSIS: see Vascular system; Heart; Brain
ARTHRITIS; ARTHROPATHIES: see Bones and Joints; Cells
ARTHROPLASTY: see Surgery; Bones and Joints
ASCORBIC ACID: see Drugs; Vitamins
ASPIRIN: see Drugs
ATHEROEMBOLIC disease: see Vascular system; Heart
ATHEROSCLEROSIS: see Vascular system; Heart; Brain
AUDITING of care process: see Hospitals, Nursing homes
AUDITORY: see Ear
AURICULAR FIBRILLATION: see Heart disorders
AUTHOR INDEX to Volume XXVII, 560
AUTHORS; INFORMATION FOR, Journal of the American Geriatrics Society: see advertising section, January and various months throughout year
AUTO-ANTIBODIES: see Immunology
AUTOIMMUNE DISEASE: see Immunology
AUTONOMIC NERVOUS SYSTEM: see Nervous system; Brain
AWARDS: see American Geriatrics Society, awards
AZATHIOPRINE: see Drugs

B vitamins: see Vitamins
BACTERIA: see also Infections
—bacterial pneumonia in the elderly; cefamandole, 345
—in the vaginal flora, 395
—in wounds, assessed by rapid slide technique (Debrisan), 511
—various, in urinary-tract infections; effect of carbenicillin indanyl NA vs. trimethoprim/sulfamethoxazole, 222
BEHAVIORAL disorders: see Mental
BETADINE: see Drugs (povidone-iodine)
BILIARY TRACT: see in relation to Gastrointestinal tract; Surgery
BLEEDING: see Vascular system; Blood
BLOCK, HEART: see Heart disorders
BLOOD: see also Vascular system; Heart; and under constituent involved
—albumin (serum) in geriatric cancer patients re nutritional support therapy, 491
—albumin (serum); reduction in the elderly, 20
—alkaline phosphatase (serum) in Paget's disease, 1
—amantadine in serum for monitoring therapy, 9
—anemia in the elderly re erythrocyte parameters, 547
—antinuclear antibody in the elderly with autoimmune disease and malignancy, 455
—autoimmunity: see Immunology
—calcium: see Calcium; Bones and Joints
—cholesterol, lipids and LC acyltransferase; age-related changes in rat and primate, 212
—cholesterol; tryptophan; effect of estrogen therapy, 481
—cholesterol: see also Cholesterol; Lipids
—embolism: see Vascular system
—enzymes: see also Enzymes
—erythrocyte folate levels in young and old, 451
—erythrocyte parameters in the elderly; argument against new geriatric normal values, 547
—erythrocyte sed. rate and disease in the elderly, 382
—flow: see also Vascular system; Heart
—glucose: see also Carbohydrate metabolism
—hemorrhage: see Vascular system
—hyper- or hypoglycemia: see Carbohydrate metabolism
—hyperuricemia; epidemiology of in an elderly ambulatory population; sex ratio, 552
—hyponatremia in a chronic disease facility; antidiuretic hormone, 156
—hypovitaminemia re various vitamins in institutional vs. noninstit. elderly, 444
—leukemia, acute, in the elderly; survival, 241
—lipids: see Lipids; Cholesterol
—pressure: see Vascular system (hypertension); Heart
—renin, aldosterone, electrolytes; age-related changes in e. hypertension; thiazide effects, 398
—renin, in e. hypertension, 193
—T cells, active rosette-forming, in the elderly; total and B lymphocytes, 170
—testosterone, FSH and LH in male climacteric, 481
—thrombosis: see Vascular system
—thyroid hormones and auto-antibodies in diagnosis of hyperthyroidism in the elderly, 152
—thyroid hormones: see also Thyroid; Hormones
BONE MARROW: see Blood; Bones and Joints
BONES AND JOINTS
—arthritic symptoms of syst. lupus erythematosus in the elderly, 58
—arthritis most common disease among noninstit. retired persons, 83
—bone-marrow data on acute leukemia in the elderly, re survival, 241
—bony prominences and decubitus ulcers; skin O_2 tension re imposed skin pressure, 298
—orthopedic disorders; rehab. in the extended care facility, 325
—Paget's disease and the nervous system, 1
—quadriprostheses (arthroplasties, amputations) of lower extremities; rehab. of aged patient with, 469

—rheumatic or autoimmune disease and simultaneous malignancy in the elderly, 455
—rheumatoid arthritis in the elderly, presenting as polymyalgia rheumatica, 183
BOOKS RECEIVED, 47, 96, 239, 288, 385, 431, 478
BOSTON Collaborative Drug Surveillance Program: see Drugs
BOWEL: see Gastrointestinal tract
BRAIN: see also Mental; Nervous system
—Alzheimer's vs. cerebrovasc. dementia, re myocardial infarction, 104
—Alzheimer's vs. multi-infarct dementia re Extended Scale for Dementia, 348
—cerebral hormones and the climacteric, 481
—cerebral lesions re myocardial infarction, 104
—cerebrovascular disease in the elderly and the corneal reflex, 317
—cerebrovascular disease: see also Vascular system
—cholinergic, dopaminergic and GABA-minergic systems in therapy of Huntington's disease, 23
—chronic brain syndrome: see also Mental
—CNS stimulants: appraisal of use in geropsychiatric patients, 476
—cognitive impairment; treatment with nylidrin HCl (vasodilator), 235
—drugs affecting brain: see also Drugs
—EEG and clinical changes during ergot alkaloid (Hydergine) therapy in geriatric patients, 198
—EEG and clinical effects of amantadine in senile dementia, 9
—electro-oculogram and EEG in studies of insomnia treated with flurazepam, 541
—Huntington's disease; current concepts of therapy, 23
—hypothalamus and pituitary; role in the aging woman, 97
—hypothalamus-pituitary response re homeostasis, 364
—in relation to historical views of depression in the elderly, 495
—neuroleptic and other drugs; adverse reactions, 117
—neurotransmitter imbalances; effect of amantidine, 9
—neurotransmitters; role of hypothalamus in the aging woman; L-dopa; catecholamines, 97
—organic brain syndrome; new stimulus recognition test, 126
—organic brain syndrome vs. functional disease; EEG; 3-year follow-up, 162
—organic brain syndrome: see also Mental
—parkinsonism and senile dementia; effects of amantadine, 9
—prosopo-affective agnosia as a symptom of cerebral organic disease, 225
—prosope-affective agnosia in chronic brain syndrome, 91
—sensory deprivation and homeostasis, 364
—stroke; rehab. in the extended care facility, 325
—stroke: see also Vascular system; Mental; Rehabilitation
—the nervous system and Paget's disease; hydrocephalus; tumor encroachment; therapy, 1
BREAST: see in relation to Cancer; Hormones (estrogen); Ovary; Uterus
BRONCHI; BRONCHITIS: see Lungs and Bronchi
BRONCHOEXTRAPLEURAL: see Lungs and Bronchi
BRONCHOPNEUMONIA: see Lungs and Bronchi
BUNDLE-BRANCH BLOCK: see Heart disorders
BUSSE, EWALD W.: Recipient of the 1979 Malford W. Thewlis Gold Medal Award of the American Geriatrics Society, 526
CAFFEINE: see Drugs (CNS stimulants)
CALCITONIN: see Drugs; Calcium
CALCIUM: see also Bones and Joints (disorders)
—calcitonin in the treatment of Paget's disease, 1
CANCER: see also Tumors; Blood (leukemia)
—cancers and precancers of skin; topical fluorouracil therapy; indications and contraindications, 529
—endometrial in women taking estrogens vs. those taking progestogen, 481
—endometrial; reduced incidence of in postmenopausal women treated with progestogens, 389
—erythrocyte sed. rate and malignancy in the elderly, 382
—geriatric cancer patients; nutritional deficiencies and nutr. support therapy, 491
—immunology: see Immunology
—in the aged; autopsy study of 940 cancer patients (Japan), 307
—malignancy and simultaneous autoimmune disease in the elderly, 455
—multiple primary cancers re age, 307
—of stomach in various age groups (Japan) as detected by gastric mass survey, 439
—prostatic cancer; preservation of sexual potency after ^{125}I implantation, 17
—sarcoma of cranial vault in Paget's disease, 1
—sites of major and of incidental cancers in the aged; prevalence of metastases; autopsies, 307
—surgery: see also Surgery
CARBENICILLIN INDANYL SODIUM (Geocillin): see Drugs
CARBOHYDRATE METABOLISM: see also Nutrition
—dietary carbohydrates: see also Diet; Nutrition
—hyperglycemia and pseudohyponatremia, 156
CARCINOMA: see Cancer
CARDIAC; CARDIOVASCULAR: see Heart; Vascular system
CEFAMANDOLE: see Drugs
CELLS: see also Blood
—in acute leukemia in the elderly as predictors of survival, 241
—T cells, active rosette-forming, in the elderly, 170
—T cells: see also Immunology
CENTRAL NERVOUS SYSTEM (CNS): see Brain; Nervous system; Mental
CEREBRAL: see Brain; Mental
CEREBROVASCULAR DISEASE: see Brain; Mental; Vascular system
CHLORPROMAZINE: see Drugs
CHOLESTEROL: see also Lipids
—cholesterol and triglyceride levels; effect of estradiol, 481
—crystals in kidney artery in case of atheroembolism and renal failure, 407
—metabolism; age-related changes in rat and primate, 212
CHOLINERGIC system: see Brain; Drugs
CHOREA (including Huntington's): see Brain; Nervous system
CHRONIC: see also Age; Geriatrics; Mental; Hospitals; Nursing homes
—and acute disease problems in rural nursing home patients, 112
—chronic brain syndrome: see also Mental; Brain
—chronic disease facility; hypoantremia in, 156
—chronic disease hospitals: see also Hospitals; Mental; Nursing homes
CIGARETTES: see Smoking
CLIMACTERIC: see Ovary; Testis; Age; Mental
COGNITION: see Mental; Brain
COLON: see Gastrointestinal tract
COMMUNITY: see also Age; Geriatrics; Health Hospitals; Mental; Nursing homes; Physicians; Rehabilitation; Socioeconomic
—and family medicine in comprehensive geriatric educational experience, 320
—community hospital; subaortic stenosis, 43
—community hospitals and emergency transvenous cardiac pacing, 208
—computer-oriented analysis of geriatric medicine, 27
—healthy aged vs. young vs. geriatric ill; erythrocyte folate levels, 451
—networks for helping the isolated elderly, 355
—outpatient treatment of elderly with late paraphrenia; fluphenazine ethanate parenterally vs. halidoperidol orally, 459
—prevention of psychiatric recidivism, 526
CONFUSION: see Mental

DRUGS: see also Hormones; Vitamins
—adverse drug reactions; risk of in a nursing home, 117
—amantadine (Symmetrel) in senile dementia; EEG and clinical effects, 9
—d-amphetamine in the elderly refractory to rehab. procedures, 174
—anticholinergic agents; adverse reactions, 117
—antidepressants, tricyclic; side effects of long-term therapy in the aged, 231
—antihypertensive and cardiovascular agents, vitamins and internal analgesics; chief drugs used by geriatric group, 374
—ascorbic acid; appraisal of as urine-acidifier in

methenamine-treated aged patients, 34
—azathioprine dosage for systemic lupus erythematosus in the elderly, 58
—Boston Collaborative Drug Surveillance Program re influence of serum albumin on protein-bound drugs, 20
—caffeine, nicotine and alcohol usage among retired persons, 83
—calcitonin in treatment of Paget's disease, 1
—carbenicillin indanyl sodium vs. trimethoprim/sulfamethoxazole for urinary-tract infections, 222
—cefamandole for bacterial pneumonia in the elderly, 345
—chlorpromazine and L-dopa; effects on prolactin in the aging woman, 97
—cholinergic agonists for Huntington's disease, 23
—clinical pharmacy involvement in geriatric health clinic at high-rise center, 514
—CNS stimulants (methylphenidate, Mg pemoline, pentylenetetrazole/niacin, caffeine); effects on short-term memory in young vs. aged monkeys, 289
—CNS stimulants (methylphenidate, pentylenetetrazol); appraisal of use for geriatric patients, 476
—corticosteroid therapy: see Hormones
—dextranomer-bead (Debrisan) dressings re rapid slide technique for bacteriologic assess. of wounds, 511
—digoxin and lidocaine for cardiac arrhythmias, 203
—dihydroergotoxin (Hydergine); 6-mg vs. 3-mg dosage for senile dementia, 80
—diuretics (also in combination) for systolic hypertension, 135
—dopaminergic antagonists for Huntington's disease, 23
—drug usage and health characteristics in non-instit. retired persons, 83
—drug use in a geriatric hypertension-screening population, 374
—drug utilization and prescribing in skilled nursing facility; rational approach, 117
—ergot alkaloid (Hydergine) therapy; EEG and clinical changes in geriatric patients, 198
—fluorouracil; indications and contraindications for topical therapy, 529
—fluorouracil, topical, for precancers and cancers of the skin (incl. face), 529
—fluphenazine enanthate parenterally vs. haldoperidol orally in late paraphrenia, 459
—flurazepam HCl (Dalmane) in the treatment of insomnia in the elderly, 541
—GABA-minergic interactions in treatment of Huntington's disease, 23
—hormones: see Hormones; Endocrine
—Huntington's disease therapy re neurotransmitter systems and genetic defects, 23
—hydroflumethiazide/reserpine combination for hypertension; convenience; costs, 507
—in treatment of depression, 38
—laxative/softener prep. (Senokot-S Tablets) for regulation of bowel function in aged nursing home patients, 464
—methenamine-treated aged patients; appraisal of ascorbic acid as urine-acidifier, 34
—methimazole; effect on serum T_3 and T_4 in young vs. old hyperthyroid subjects, 152
—mineral and vitamin prescriptions in health-related facilities, 425
—mithramycin in treatment of Paget's disease, 1
—neuroleptics; adverse reactions, 117
—nylidrin HCl (Arlidin) as vasodilator therapy for cognitive impairment in the elderly, 235
—povidone-iodine (Betadine); topical application for decubitus and stasis ulcers, 302
—preparation of topical fluorouracil, 529
—progestogen therapy and reduced incidence of endometrial cancer in postmenopausal women, 389
—propranolol and quinidine for cardiac arrhythmias, 203
—propranolol ± digitalis re diagnosis of hypertrophic subaortic stenosis in the elderly, 178

NURSES; NURSING: see also Hospitals; Nursing homes; Health; Mental; Rehabilitation
—nursing services in alternative model for long-term geriatric care, 279
NURSING HOMES: see also Age; Geriatrics; Mental; Hospitals
—aged patients in; regulation of bowel function by a laxative/softener prep., 464
—alternative model in geriatric care, 279
—avoiding admission diagnostic errors, 558
—chronic disease facility; hyponatremia in, 156
—computer-oriented analysis of geriatric medicine; long-term care, 27
—decubitus and stasis ulcers; topical application of povidone-iodine (Betadine), 302
—decubitus ulcers; skin O_2 tension as function of imposed skin pressure, 298
—erythrocyte folate levels, 451
—geriatric unit; auditing the process of care in, 107
—geropsychiatric patients; behavioral improvement during age-integrated psychosocial program, 218
—health-related facilities; prescriptions for vitamins and minerals in, 425
—in the Netherlands; modern ideas re organization of services, 258
—institutionalized older adults; future orientation, 130
—long-term care facilities; medical care evaluation, 62
—long-term care facility; contributions to medical care of the aged, 410
—psychiatric recidivism; prevention, 536
—relaity orientation classes; eval. of effectiveness, 522
—rural nursing home patients; chronic and acute disease problems, 112
—sexuality in, 73
—skilled nursing facility; drug utilization and prescribing; rational approach, 117
—the extended care facility; rehabilitation in; ADL assessments, 325
—vitamin profile among residents vs. that in healthy young subjects, 444
NUTRITION: see also Diet; Age; Geriatrics; Health; Socioeconomics; Vitamins

—and functional capacity of the aged; structural model, 314
—cultural and sex differences in dietary patterns of the urban elderly, 359
—nutritional deficiencies and nutr. support therapy in geriatric cancer patients, 491
NYLIDRIN: see Drugs

OLD AGE: see Age; Geriatrics
OPHTHALMOLOGY: see Eye
ORGANIC BRAIN SYNDROME: See Mental; Brain; Age
ORTHOPEDIC disorders: see Bones and Joints
OSTEOPOROSIS: see Bones and Joints
OVARY: see also Hormones; Sex; Uterus and Vagina
—estrogens in the aging woman, 97
—estrogens: see also Hormones
—female climacteric; psychotonic effects of gonadal steroids, 481
—females versus males: see Sex
—menopausal headaches re menstruation; estrogen-progestogen therapy, 481
—menopausal patient with hot flashes; urinary catechol amines, 97
—menopausal symptoms (incl. headaches and hot flashes) re pituitary-hypothalamus, 97
—postmenopausal women treated with progestogens; reduced incidence of endometrial cancer, 389
—progestogens vs. estrogen alone re endometrial cancer, 481
—the aging woman; role of the hypothalamus and pituitary, 97
—the vaginal flora after natural or surgical menopause; relation to infections, 395
—woman aged 84 with lower-extremity quadriprostheses; rehab., 469
—woman, elderly; simple primary tuberculosis, 123
OXYGEN
—and exercise: see Exercise
—hypoxia: see Heart; Vascular system
—ischemia: see Heart; Vascular system
—O_2 tension of skin as a function of imposed skin pressure, re decubitus ulcers, 298

PACEMAKERS: see Heart
PAGET'S DISEASE: see Bones and Joints; Nervous system; Brain
PAIN: see Brain; Nervous system
PALATAL sensitivity to touch in relation to age, 319
PANCREAS as site of major cancer in the elderly; autopsy study, 307
PARAPHRENIA: see Mental
PARKINSON'S DISEASE: see Brain; Nervous system
PENTYLENETETRAZOL (Metrazol): see Drugs (CHS stimulants)
PENTYLENETETRAZOLE/NIACIN (Melatex/Geroniazol): see Drugs (CNS stimulants)
PERIPHERAL VASCULAR DISEASE: see Vascular system
PERSONALITY: see Mental
PHARMACOLOGIC; PHARMACOLOGY: see Drugs
PHARMACY: see also Drugs
—clinical pharmacy involvement in a geriatric health clinic in a high-rise center, 514
—prescriptions for vitamins and minerals in health-related facilities, 425
—services in alternative model for long-term geriatric care, 279
PHONOCARDIOGRAPHY: see Heart
PHYSICAL: see also Exercise; Health; Rehabilitation
—activity; sensory stimulus re homeostasis, 364
—disability; rehab. in the extended care facility, 325
—disease and the erythrocyte sed. rate in the elderly, 382
—exercise: see also Exercise
—healthy elderly adults; perceptions of poor health among, 330
—stress testing (ECG treadmill); geriatric application, 337
—tonic effects of gonadal steroids, 481
PHYSICIANS: see also Medical; Medicine; Education; Research; Surgery
—avoiding diagnostic errors in admitting patients to a nursing home, 558
—drug prescribing: see also Drugs
—family and community medicine in a comprehensive geriatric educational experience, 320
—geriatric practice: see also Age; Geriatrics
—healthy elderly patients with perception of poor health, 330
—importance of a regular source of medical care among the elderly, 555
—medical director in long-term care; evolving role, 279
—physician-visit audit re skilled nursing homes, 62
—physician's office setting; geriatric application of ECG treadmill testing, 337
—reasonable expectations in geriatric rehab., 237
—the phychiatrist: see also Mental; Brain
—the surgeon: see also Surgery
PITUITARY
—hormones: see Hormones
—hypothalamus-pituitary response re homeostasis, 364
—pituitary-hypothalamus relationships in the aging woman; various hormones, 97
PLEURA: see Lungs and Bronchi
PNEUMONIA, bacterial, in the elderly; cefamandole, 345
PNEUMONOLYSIS: see Lungs and Bronchi
POLYMYALGIA RHEUMATICA vs. rheumatoid arthritis, 183
POSTMENOPAUSAL: see Ovary; Hormones; Age
POVIDONE-IODINE (Betadine): see Drugs
PRECANCERS: see Cancer; Skin
PRESCRIBING: see Drugs
PRESSURE SORES: see Skin
PREVENTIVE MEDICINE: see Medicine; Medical; Mental; Health; Physical, Exercise; Socioeconomic
PRIMATES (non-human)
—monkeys, aged vs. young; effect of CNS stimulants on short-term memory, 289
—primate (monkey) plasma cholesterol metabolism; age-related changes, 212
PROGESTOGENS: see Hormones
PROLACTIN: see Hormones
PROLAPSE of mitral valve in the elderly, 421
PROPRANOLOL: see Drugs (incl. antihypertensive)
PROSOPO-AFFECTIVE AGNOSIA: see Brain; Mental
PROSTAGLANDIN E excretion in essential hypertension, 193
PROSTATE: see also Testis; Urinary tract
—benign prostatic hypertrophy as cause of occult renal damage in elderly male; prostatectomy, 403
—cancer; prevalence in aged patients; autopsies, 307
—cancer; preservation of sexual potency after ^{125}I implantation, 17
—infections: see also Urinary-tract infections
—prostatectomy; mortality by age groups (1951–77), 433
PROTEIN
—albumin of serum in geriatric cancer patients re nutritional support therapy, 491
—dietary: see Diet; Nutrition
—lipoproteins: see Lipids
—protein-bound drugs; effect of reduced serum albumin in the elderly, 20
PSYCHIATRIC; PSYCHIATRY: see Mental; Brain
PSYCHOGERIATRIC: see Mental; Age; Geriatrics
PSYCHOLOGIC: see Mental; Brain; Tests
PSYCHOSIS: PSYCHOTIC: see Mental; Brain
PSYCHOTHERAPY: see Mental
PSYCHOTROPIC DRUGS: see Drugs; Mental
PULMONARY: see Lungs and Bronchi

QUADRIPROSTHESES: see Surgery; Bones and Joints; Rehabilitation
QUALITY OF LIFE: see also Mental; Socioeconomic
—improving the quality of life for the elderly (Senator Mathias' address to the AGS), 385
QUINIDINE: see Drugs

RACE: differences in dietary patterns of the urban elderly, 359
RADIATION
—^{125}I implantation for prostatic cancer; preservation of sexual potency, 17
—radiation-treated geriatric cancer patients; response to nutritional support, 491
—x-ray cardio-thorax ratio in hypertension; effect of antihypertensive drugs, 500
—x-ray evidence of bronchoextrapleural fistula after extrapleural pneumonolysis, 378
—x-ray findings in Paget's disease, 1
RAPID SLIDE TECHNIQUE: see Methods; Surgery; Wounds; Infections
REALITY ORIENTATION: see Mental
RECIDIVISM, psychiatric: see Mental
RECIPIENTS OF 1979 AWARDS of the American Geriatrics Society, 525
RECORDS: see also Hospitals; Nursing homes; Mental; Physicians
—geriatric medicine; model for computer-oriented analysis, 27
—problem-oriented, in the auditing of the care process in a geriatric unit, 107
—records: see also model studies under Health; Mental; Pharmacy
RECTUM: see Gastrointestinal tract
REHABILITATION: see also Age; Geriatrics; Mental; Hospitals; Nursing homes; Physical; Exercise; Socioeconomic
—auditing the care process in a geriatric unit, 107
—elderly patients refractory to rehab. procedures; trial of amphetamine, 174
—geriatric rehabilitation; reasonable expectations, 237
—in the extended care facility; ADL assessment, 325
—of aged patient with lower-extremity quadriprostheses, 469
—services in alternative model for geriatric care, 279
RELEASING FACTORS: see Hormones; Pituitary
RENAL: see Kidney; Urinary tract
RENIN: see Kidney; Blood; Vascular system
REPORTS of American Geriatrics Society Meetings (Board of Directors, and AGS members), 139
RESEARCH: see also Age; Geriatrics; Drugs; Medicine; Mental; Socioeconomic
—computer-oriented research analysis of geriatric medicine, 27
—contributions of the long-term care facility to, 410
RESERPINE: see Drugs (incl. hydroflumethiazide/reserpine)
RESIDENCY programs; assessment: see Geriatrics; Medicine; Physicians; Education
RESPIRATORY: see Lungs and Bronchi
RETIRED persons: see Retirement
RETIREMENT: see also Age; Geriatrics; Mental; Socioeconomic
—or unemployment in relation to drinking patterns in the elderly, 244

—retired persons; drug usage and health characteristics, 83
RHEUMATIC DISEASE; RHEUMATISM: see Bones and Joints
RHEUMATOID ARTHRITIS: see also Bones and Joints
—in the elderly, presenting as polymyalgia rheumatica, 183
RITALIN: see Drugs (methylphenidate; CNS stimulants)
RURAL nursing homes: see also Nursing homes

SARCOMA: see Tumors; Cancer
SEDATIVES: see Drugs; Mental; Nervous system; Brain
SENESCENCE; SENESCENT: see Age; Geriatrics; Mental
SENILE DEMENTIA: see Mental; Age
SENILE; SENILITY: see Age; Geriatrics; Mental
SENOKOT-S Tablets: see Drugs (laxative/softener prep.)
SENSORY DEPRIVATION: see Brain; Mental
SEX: see also Hormones; Ovary; Testis; Mental
—and drinking patterns in various age groups, 244
—as predictor of survival among the elderly with acute leukemia, 241
—differences in dietary patterns of the urban elderly, 359
—distribution re drug use in a geriatric population, 374
—females re idiopathic hypertrophic subaortic stenosis, 43
—females: see also Ovary; Hormones
—hormones: see also Hormones
—male and female climacteric; update, 481
—males: see also Testis; Hormones
—of health workers re attitudes toward old people, 186
—ratio among elderly patients hosp'd for acute illness, 415
—ratio (equal) for scores on Extended Scale for Dementia, 348
—ratio for hyperthyroidism in the elderly, 152
—ratio for stomach cancer (Japan) by age groups, 439
—ratio in autopsy study of 940 elderly cancer patients, 307
—ratio in patients of a rural nursing home, 112
—ratio in relation to hyperuricemia in an elderly ambulatory population, 552
—sexual potency; preservation of in prostatic cancer after ^{125}I implantation, 17
—sexuality in nursing homes, 73
—the aging woman; role of hypothalamus, 97
—women vs. men, retired; reports re disease and dissatisfaction, 83
SEXUAL POTENCY: see Sex; Ovary; Testis
SHANNON, RICHARD P.: Recipient of the 1979 Edward Henderson Memorial Student Award of the American Geriatrics Society, 527
SHORT PORTABLE Mental Status Questionnaire: see Mental
SKIN
—decubitus ulcer protocol in rehab. program, 325
—decubitus ulcers; O_2 tension of skin as function of imposed skin pressure, 298
—keratoses and dermatoses (selected) treated with topical fluorouracil, 529
—precancers and cancers of skin (incl. face); topical fluorouracil therapy, 529
—systemic lupus erythematosus in the elderly, 58
—wounds in the elderly; bacteriologic assess. of by rapid slide technique (dextranomer beads) vs. biopsy method, 511
SLEEP: see also Mental; Drugs (hypnotics, sedatives)
—insomnia in the elderly treated with flurazepam HCl, 541
—sedative-hypnotics; adverse reactions, 117
SMOKING
—cigarette smoking re dietary patterns of urban elderly, 359
—nicotine usage among noninstit. retired persons, 83
SOCIAL: see Socioeconomic; Mental
SOCIOECONOMIC: see also Age; Geriatrics; Health; Mental
—alcohol use among older persons in a Western New York State survey, 244
—attitudes of health workers toward old people, 186
—auditing the care process; family factors, 107
—counseling the isolated elderly, 355
—evaluation of care in skilled nursing homes, 62
—family problems: see also Mental; Family
—future orientation of institutional older adults, 130
—health services for the elderly; importance of a regular source of medical care, 555
—historical notes on medical views of depression in the elderly, 495
—hospitalization of the elderly with acute illness, 415
—improving the quality of life for the elderly; the factor of cost-effectiveness, 385
—Life Satisfaction Index-Form A as applied to the elderly, 418
—medical care; see also Health; Medical; Medicine; Mental; Hospitals; Nursing homes; Physicians
—mental aspects; see also Mental
—nursing homes and hospitals: see also Nursing homes; Hospitals
—physicians and Nurses: see also Physicians; Nurses; Hospitals; Nursing homes
—psychosocial age-integrated program and behavioral improvement in geropsychiatric patients, 218
—reasonable expectations in geriatric rehab., 237
—retired persons; health; drug and social usage, 83
—rural nursing home patients; chronic and acute disease problems, 112
—services for the aged; model for computer-oriented analysis, 27
—sexuality in nursing homes, 73
—social functioning as a predictor in psychogeriatric assessment, 162
—social networks of the aged living in SRO hotels, 270
—social policy directed toward health and welfare of the aged in the Soviet Union, 49
—social problems; avoiding diagnostic errors on admitting patients to nursing homes, 558
—social security and service in the Soviet Union, 49
—social stresses and depression in the elderly, 38
—socioeconomic variables; importance in testing intellectual functioning in the elderly, 263
SODIUM
—and potassium of plasma in essential hypertension, 193
—as factor in age-related changes in renal and endocrine function in e. hypertension, 398
—hyponatremia in a chronic disease facility; antidiuretic hormone, 156
SODIUM ETIDRONATE: see Drugs
SOVIET UNION: social policy for health and welfare of the aged, 49
SPEECH: see re Stroke
—under Vascular system; Brain; Rehabilitation
STASIS ULCERS: see Skin
STENOSIS, hypertrophic subaortic: see Vascular system; Heart
STEROID THERAPY: see Hormones; Drugs
STOMACH: see Gastrointestinal tract
STRESS: see Mental; Physical
STROKE: see Brain; Vascular system; Mental
SUBAORTIC STENOSIS: see Heart; Vascular system
SUBJECT INDEX to Volume XXVII, 563
SUGAR: see Carbohydrate metabolism; Diet; Nutrition
SUICIDE: see Mental (depression); Mortality
SURGERY: see also specific disease or system
—abdominal and thoracic operations; mortality by age and time groups (1951–77), 433
—aged patients: see also Age; Geriatrics
—cancer: see also Cancer; Tumors
—emergency transvenous cardiac pacing in elderly patients, 208
—for mitral valve prolapse in the elderly, 421
—for stomach cancer (Japan); mortality, 439
—gastrointestinal: see also Gastrointestinal tract
—geriatric cancer patients; response to nutritional support therapy, 491
—gynecologic surgical infections in postmenopausal women; relation to vaginal flora, 395
—in Paget's disease, 1
—lymphadenectomy and ^{125}I implantation for prostatic cancer; preservation of sexual potency, 17
—operative risks not the same in young vs. old; atherosclerosis, 433
—pneumonolysis, extrapleural; bronchoextrapleural fistula after, 378
—prostatectomy; effect in elderly male with b. prost. hypertrophy causing renal damage, 403
—quadriprostheses of lower extremities (hip arthroplasties, below-knee amputations); rehab. of aged patient, 469
—surgical operations (1951–77); mortality rate re age groups and time periods, 433
—surgical vs. natural menopause; vaginal flora after; relation to infection; 395
—urologic and gynecologic operations; mortality by age groups (1951–77), 433
—wounds in the elderly; bacteriologic assess. by rapid slide technique (dextranomer beads) vs. biopsy method, 511
SURVIVAL: see Mortality
SYMMETREL: see Drugs (amantadine)
SYMPOSIA: see American Geriatrics Society; New and Notices
SYSTEMIC LUPUS ERYTHEMATOSUS in the elderly, 58

T CELLS: see also Blood; Immunology
—active rosette-forming T cells in the elderly, 170
TECHNIQUES: see Methods; Tests
TEMPERATURE of body re functional capacity of the aged, 314
TESTIS: see also Hormones; Sex; Prostate
—elderly man; occult renal damage due to b. prostatic hypertrophy, 403
—male climacteric; psychotonic effects of gonadal steroids, 481
—males versus females: see also Sex
—sex hormones: see also Hormones
—sexual potency; preservation of in prostatic cancer after ^{125}I implant, 17
TESTOSTERONE: see Hormones; Testis
TESTS: see also Methods; Mental
—cardiac: see Heart
—development and application of the Extended Scale for Dementia, 348
—EEG: see Brain
—erythrocyte parameters: see Blood; Methods
—erythrocyte sed. rate and disease, 382
—for hyperthyroidism in the elderly, 152
—for prosopo-affective agnosia, 91, 225
—Life Satisfaction Index-Form A as applied to the elderly; scoring patterns, 418
—misplaced-objects task for memory dysfunction, 284
—Progestogen Challenge Test for reduced incidence of endometrial cancer in postmenopausal women, 380
—psychologic: see also Mental

—stimulus recognition test for senile confusion, 126
THEWLIS, MALFORD W.: Gold Medal Award of the American Geriatrics Society for 1979 to Ewald W. Busse, MD, 526
THIAZIDE: see Drugs (incl. antihypertensive)
THROMBOSIS: see Vascular system; Brain; Heart
THYROID: see also Hormones; Iodine
—cancer; prevalence in aged patients; autopsies, 307
—hormones (T_3, T_4), TSH, TRH and I^{131} uptake in diagnosis of hyperthyroidism in the elderly, 152
—hyperthyroidism in the elderly; methimazole therapy, 152
THYROID-STIMULATING HORMONE (TSH): see Hormones; Thyroid
THYROTROPIN-RELEASING HORMONE (TRH): see Hormones; Thyroid
THYROXINE (T_4): see Hormones; Thyroid
TOBACCO: see Smoking
TOPICAL FLUOROURACIL: see Drugs
TOUCH; palatal sensitivity to; correlation with age, 319
TRANQUILIZERS: see Drugs; Mental
TRAUMA: see also Wounds
—fractures; see Bones and Joints
—mental: see Mental
—surgical: see Surgery
TREADMILL: See Exercise
TRICYCLIC ANTIDEPRESSANTS: see Drugs, Mental
TRIIODOTHYRONINE (T_3): see Hormones; Thyroid
TRIMETHOPRIM/SULFAMETHOXAZOLE (Bactrin, Septra): see Drugs (vs. carbenicillin)
TRYPTOPHAN of plasma; effect of estrogen therapy, 481
TUBERCULOSIS: see also Infections
—extrapleural pneumonolysis; bronchoextrapleural fistula after, 378
—simple, primary TB in an elderly woman, 123
TUMORS: see also Cancer
—sarcoma of cranial vault in Paget's disease, 1
TYPE A (coronary-prone) behavior pattern: see Heart; Mental

ULCERS
—decubitus: see Skin; Nursing homes
—stasis: see Skin; Vascular system
UPDATE on male and female climacteric, 481
UREMIA: see Kidney
URIC ACID
—hyperuricemia; epidemiology of in an ambulatory elderly population, 552
URINARY TRACT: see also Kidney; Urine; Prostate
—genitourinary infection rate in patients of a rural nursing home, 112
—infections; appraisal of ascorbic acid as urine acidifier in methamine-treated patients, 34
—infections; carbenicillin indanyl sodium vs. trimethoprim/sulfamethoxazole for, 222
URINE: see also Kidney; Urinary tract
—acidification with ascorbic acid in methamine-treated patients; appraisal, 34
—hydroxyproline excretion in Paget's disease, 1
—prostaglandin E, catecholamines and AMP excretion in e. hypertension, 193
—sodium chloride and creatine excretion re age-related changes in renal function in e. hypertension, 398
UROLOGIC: see Kidney; Urinary tract; Surgery
UTERUS AND VAGINA: see also Ovary
—endometrial cancer in women taking estrogen vs. those taking progestogen, 481
—endometrial cancer; reduced incidence in postmenopausal women treated with progestogens, 389
—uterine weight re estradiol therapy in castrated rats, 97
—vaginal flora after natural or surgical menopause; relation to infections, 395

VAGINA: see Uterus and Vagina
VALIDITY studies: see Mental (psychologic tests); Methods
VASCULAR SYSTEM: see also Heart; Blood
—acute cardiovasc. disorders; hosp'n of the elderly for, 415
—arteriosclerosis in patients of a rural nursing home, 112
—atheroembolic disease (spontaneous) as cause of renal failure in the elderly, 407
—atherosclerosis as chief factor in operative mortality in the elderly, 433
—atherosclerosis re age-related changes in cholesterol metab. in rat and primate, 212
—brain: see also Brain
—cardiovascular side effects of long-term tricyclic antidepressant therapy in the aged, 231
—cardiovascular: see also Heart
—cerebrovascular disease in the elderly and the corneal reflex, 317
—cerebrovascular: see also Brain
—infarcts and hemorrhages of brain vs. Alzheimer's dementia, re myocardial infarction, 104
—essential hypertension; age-related changes in endocrine and renal function, 398
—essential hypertension re changes in hormonal activities, 193
—hypertension common among noninstit. retired persons, 83
—hypertension; effect of antihypertensive drugs on left ventricular hypertropy, 500
—hypertension history and age; relation to idiopathic hypertrophic subaortic stenosis, 43
—hypertension in the elderly; hydroflumethiazide/reserpine combination therapy, 507
—hypertension, systolic, in a defined community; response to treatment, 135
—hypertension-screening geriatric clinic; drug use among patients, 374
—hypertrophic subaortic stenosis, unsuspected, diagnosed by echocardiography, 178
—renin of plasma in e. hypertension, 193
—stroke; rehab. in the extended care facility, 325
—stroke: see also Brain; Mental
—transvenous emergency cardiac pacing in the elderly, 208
—urinary postaglandin E, catecholamines, and AMP in e. hypertension, 193
—vasodilator therapy with nylidrin for cognitive impairment in the elderly, 235
VASODILATORS: see Drugs; Vascular system
VISION; VISUAL: see Eye
VITAMINS: see also Diet; Nutrition
—ascorbic acid as urine acidifier in methenamine-treated patients, 34
—B_6, nicotinate, and B_{12} the most common deficits in the elderly, 444
—commonly used by geriatric hypertension-screening population, 374
—folate levels in erythrocytes of young and old, 451
—hypovitaminemia in institutional vs. noninstit. elderly, 444
—vitamin and mineral prescriptions in health-related facilities, 425
—vitamin profiles for the elderly in nurisng homes or own homes vs. profile for healthy young subjects, 444
—vitamin supplementation; response to in elderly groups, 444
—vitamin usage among noninstit. retired persons, 83
—vitamins re nutritional support therapy in geriatric cancer patients, 491

WATER: under- or overhydration re hyponatremia in a chr. disease facility; antidiuretic hormone, 156
WOMEN: see Ovary; Sex
WOUNDS: see also Trauma; Surgery
—bacteriologic assess. by rapid slide technique (dextranomer beads) vs. biopsy method, 511
—ulcers, stasis or decubitus: see Skin

X-RAYS: see Radiation

Contents of Volume XXVII

NO. 1, JANUARY 1979

Paget's Disease and the Nervous System. *Robert G. Feldman, Antonio Culebras and Harry H. Schmidek* 1
Amantadine in Senile Dementia: Electroencephalographic and Clinical Effects. *H. F. Müller, D. P. Dastoor, A. Klingner, M. Cole and J. Boillat* 9
Preservation of Sexual Potency in Prostatic Cancer Patients after ^{125}I Implantation. *Harry W. Herr* 17
Reduced Serum Albumin Concentration in the Elderly: A Report from the Boston Collaborative Drug Surveillance Program. *David J. Greenblatt* 20
Huntington's Disease: Current Concepts of Therapy. *Christopher G. Goetz and William J. Weiner* 23
Geriatric Medicine: Model for Computer-Oriented Research Analysis. *Sankar K. Das, John Anderson and Mohan S. Kataria* 27
Appraisal of Ascorbic Acid for Acidifying the Urine of Methenamine-Treated Geriatric Patients. *Debra V. Naccarto, Christine J. Bell and Peter P. Lamy* 34
Depression in the Elderly. *Stanley E. Goldstein* 38
Idiopathic Hypertrophic Subaortic Stenosis As Observed in a Large Community Hospital: Relation to Age and History of Hypertension. *Thomas J. Petrin and Morton E. Tavel* 43
Books Received 47
The American Geriatrics Society—Announcements 48

NO. 2, FEBRUARY 1979

A Social Policy Directed Toward the Health and Welfare of the Aged in the Soviet Union. *Dmitri F. Chebotarev and Nina N. Sachuk* 49
Systemic Lupus Erythematosus in the Older Age Group: Computer Analysis. *Jacob Dimant, Ellen M. Ginzler, Michael Schlesinger, Herbert S. Diamond and David Kaplan* 58
Medical Care Evaluation Studies in Long-Term Care Facilities. *James G. Zimmer* 62
Sexuality in Nursing Homes. *Mona Wasow and Martin B. Loeb* 73
Dihydroergotoxine: 6-Mg versus 3-Mg Dosage in the Treatment of Senile Dementia. Preliminary Report. *Jerome A. Yesavage, Leo E. Hollister and Ernst Burian* 80
Drug Usage and Health Characteristics in Noninstitutional Retired Persons. *Arthur M. Vener, Lawrence R. Krupka and Jacob J. Climo* 83
Prosopo-Affective Agnosia Associated with Chronic Organic Brain Syndrome. *Janos Kurucz, Gabriel Feldmar and William Werner* 91
Books Received 96

NO. 3, MARCH 1979

Role of the Hypothalamus in the Aging Woman. *Robert B. Greenblatt, P. K. Natrajan and V. Tzingounis* 97
Myocardial Infarction in the Differential Diagnosis of Dementias in the Elderly. *S. Hontela and G. Schwartz* 104
Auditing the Process of Care in a New Geriatric Unit. *Joanne Chekryn and Leslie J. Roos, Jr.* 107
Chronic and Acute Disease Problems in Rural Nursing Home Patients. *John Dahlsten and J. Christopher Shank* 112
Drug Utilization and Prescribing Patterns in a Skilled Nursing Facility: The Need for a Rational Approach to Therapeutics. *Jack L. Segal, John F. Thompson and Ronald A. Floyd* 117
Simple Primary Tuberculosis in an Elderly Woman. *W. James Alexander, C. Kirk Avent and William C. Bailey* 123
Senile Confusion: Assessment with a New Stimulus Recognition Test. *T. L. Brink, J. Bryant, M. L. Catalano, C. Janakes and C. Oliveira* 126
Institutionalized Older Adults and Their Future Orientation. *Elizabeth Hughes* 130
Systolic Hypertension: Occurrence and Treatment in a Defined Community. *Arthur W. Seligmann, Michael H. Alderman and Toni K. Davis* 135
Reports of American Geriatrics Society Meetings 139
The American Geriatrics Society—Announcements 144

NO. 4, APRIL 1979

The Elderly Patient in the Coronary Care Unit. I. Acute Myocardial Infarction. *Neil D. Berman* 145
Hyperthyroidism in the Elderly. *Tetsuya Kawabe, Ichiro Komiya, Toyoshi Endo, Yoichi Koizumi and Takashi Yamada* 152
Hyponatremia As Observed in a Chronic Disease Facility. *Morris Kleinfeld, Mirtha Casimir and Sonia Borra* 156
A Psychogeriatric Assessment Program. V. Three-Year Follow-Up. *D. P. Dastoor, A. Klingner, H. F. Müller and R. Kachanoff* 162
Active Rosette-Forming T Cells in the Elderly. *Barbara A. Neilan and Luigi Taddeini* 170
d-Amphetamine in Elderly Patients Refractory to Rehabilitation Procedures. *A. N. G. Clark and G. D. Mankikar* 174
Unsuspected Hypertrophic Subaortic Stenosis in the Elderly Diagnosed by Echocardiography. *Marvin Berger, Charles Rethy and Emanuel Goldberg* 178
Rheumatoid Arthritis in the Elderly, Presenting as Polymyalgia Rheumatica. *Jacob Dimant* 183
Attitudes of Health Workers Toward Old People. *Kenneth Solomon and Raymond Vickers* 186
The American Geriatrics Society—Announcements 192

NO. 5, MAY 1979

Changes in Hormonal Activities Relative to the Severity of Essential Hypertension. *Kazuki Ito, Tetsuhiro Kubota, Takashi Yamada, Masato Tawata, Tomomichi Tsukui, Hajime Nagata, Tomio Izumiyama, Shiro Kono and Kazuo Kamata* 193
Electroencephalographic and Clinical Changes As Correlated in Geriatric Patients Treated Three Months with an Ergot Alkaloid Preparation. *Milan Matejcek, Karel Knor, Pierre V. Piguet and Claude Weil* 198
The Elderly Patient in the Coronary Care Unit. II. Incidence and Treatment of Arrhythmias. *Neil D. Berman* 203
Emergency Transvenous (Subclavian) Cardiac Pacing in Elderly Patients. *Carl E. Bartecchi* 208
Age-Related Changes in Rat and Primate Plasma Cholesterol Metabolism. *Andras G. Lacko and Jerry L. Davis* 212
Behavioral Improvement in Long-Term Geriatric Patients during an Age-Integrated Psychosocial Rehabilitation Program. *Joel Peter Abrahams, Howard F. Wallach and Shirley Divens* 218
Relative Efficacy of Carbenicillin Indanyl Sodium and of Trimethoprim/Sulfamethoxazole in Urinary-Tract Infections. *Harry Seneca* 222
Prosopo-Affective Agnosia As a Symptom of Cerebral Organic Disease. *Janos Kurucz and Gabriel Feldmar* 225
Cardiovascular Side Effects of Long-Term Therapy with Tricyclic Antidepressants in the Aged. *Manuel Rodstein and Liem Som Oei* 231

Efficacy of Nylidrin Hydrochloride in the Treatment of Cognitive Impairment in the Elderly. *Floyd K. Garetz, Jesse J. Barron, Phyllis B. Barron and Arvis E. Bjork* 235
Reasonable Expectations in Geriatric Rehabilitation. *C. I. Gryfe* 237
Books Received 239

NO. 6, JUNE 1979

Survival in the Elderly with Acute Leukemia. *Frederick F. Holmes, Erwin Hearne III, Merrill Conant and William Garlow* 241
Alcohol Use Among Older Persons: Findings from a Western New York State General Population Survey. *Grace M. Barnes* 244
The Type A (Coronary-Prone) Behavior Pattern, Aging, and Mortality. *Jack Sparacino* 251
Modern Ideas About Organization of Services for Elderly Patients in Hospitals and Nursing Homes in the Netherlands. *J. Schouten* 258
Validity Study of the Short Portable Mental Status Questionnaire for the Elderly. *Michael A. Smyer, Brian F. Hofland and Edward A. Jonas* 263
Health-Seeking Behavior and Social Networks of the Aged Living in Single-Room Occupancy Hotels. *Carl I. Cohen and Jay Sokolovsky* 270
An Alternative Model in Geriatric Care. *Stanley R. Ingman, Catherine A. McDonald and Richard Lusky* 279
The Misplaced-Objects Task: A Brief Test for Memory Dysfunction in the Aged. *Thomas Crook, Steven Ferris and Martin McCarthy* 284
Books Received 288

NO. 7, JULY 1979

Four Stimulants of the Central Nervous System: Effects on Short-Term Memory in Young versus Aged Monkeys. *Raymond T. Bartus* 289
Skin Oxygen Tension As a Function of Imposed Skin Pressure: Implication for Decubitus Ulcer Formation. *Walter O. Seiler and Hannes B. Stähelin* 298
Topical Application of Povidone-Iodine in the Management of Decubitus and Stasis Ulcers. *Bok Y. Lee, Frieda S. Trainor and William R. Thoden* 302
Cancer in the Aged: An Autopsy Study of 940 Cancer Patients. *Toshiharu Ishii, Kohtaro Maeda, Kaoru Nakamura and Yasohiro Hosoda* 307
A Structural Model of Functional Capacity in the Aged. *C. Leering* 314
The Corneal Reflex in Elderly Patients. *G. S. Rai and A. Elias-Jones* 317
Palatal Sensitivity to Touch: Correlation with Age. *Herbert F. Newman* 319
Toward a Comprehensive Geriatric Educational Experience. *Stanley R. Ingman, Carol Panicucci and Roger Hofmeister* 320
Rehabilitation in the Extended Care Facility. *Julian W. Reed and John E. Gessner* 325
Perception of Poor Health in the Healthy Older Adult. *Dan G. Blazer and Jeffrey L. Houpt* 330
Book Received 335
The American Geriatrics Society—Announcements 336

NO. 8, AUGUST 1979

A New Geriatric Application of Electrocardiographic Treadmill Testing in an Office Setting. *Julius Schwimmer* 337
Bacterial Pneumonia in the Elderly: A Reappraisal of Conventional Therapy, with a Note on Cefamandole. *Richard A. Gleckman and Anthony L. Esposito* 345
Development and Application of the Extended Scale for Dementia. *Edwin L. Hersch* 348
Counseling the Isolated Elderly. *Eloise Rathbone-McCuan and Camille Claymon* 355
Cultural and Sex Differences in Dietary Patterns of the Urban Elderly. *Kathleen I. Hunter and Margaret W. Linn* 359
Sensory Deprivation and Homeostasis. *Claude Oster* 364
Incorporation of Gerontology into Medical Education. *Georgia G. Hall and Monica N. Starkman* 368
Drug Use in a Geriatric Population. *William E. Hale, Ronald G. Marks and Ronald B. Stewart* 374
Bronchoextrapleural Fistula after Extrapleural Pneumonolysis. *Sudhir Bansal, Padmanabhan Devanaryanan and Rudolph J. Napodano* 378
Erythrocyte Sedimentation Rate and Disease in the Elderly. *G. S. Rai* 382

NO. 9, SEPTEMBER 1979

Improving the Quality of Life in the Elderly. *Charles McC. Mathias (Senator)* 385
Reduced Incidence of Endometrial Cancer among Postmenopausal Women Treated with Progestogens. *R. Don Gambrell, Jr., Fred M. Massey, Tristan A. Castaneda, Aldonna J. Ugenas and Corinne A. Ricci* 389
The Vaginal Flora after Natural or Surgical Menopause. *Martin Blum and Inge Elian* 395
Age-Related Changes in Endocrine and Renal Function in Patients with Essential Hypertension. *Takashi Yamada, Toyoshi Endo, Kazuki Ito, Hajime Nagata and Tomio Izumiyama* 398
Occult Progressive Renal Damage in the Elderly Male Due to Benign Prostatic Hypertrophy. *E. Mukamel, I. Nissenkorn, G. Boner and C. Servadio* 403
"Spontaneous" Atheroembolic Disease As a Cause of Renal Failure in the Elderly. *Umamaheswara R. Varanasi, A. Vishnu Moorthy and Gregory J. Beirne* 407
Contributions of the Long-Term Care Facility to the Medical Care of the Aged. *Manuel Rodstein* 410
Hospitalization of the Elderly Patient for Acute Illness. *Rodrigo A. Munoz and Betty Mesick* 415
The Life Satisfaction Index-Form A as Applied to Older Adults: Technical Note on Scoring Patterns. *Robert O. Ray* 418
Mitral Valve Prolapse in the Elderly. *Donald D. Tresch, Ronald Siegel, Michael H. Keelan, Jr., Charles M. Gross and Harold L. Brooks* 421
Appropriateness of Vitamin and Mineral Prescription Orders for Residents of Health Related Facilities. *Andrew A. Sorensen, Donna I. Sorensen and James G. Zimmer* 425
Books Received 431
The American Geriatrics Society—Announcements 432

NO. 10, OCTOBER 1979

Comparison of Mortality Rates for Various Surgical Operations According to Age Groups, 1951–1977. *Sidney E. Ziffren* 433
Stomach Cancer in Various Age Groups (Japan) As Detected by Gastric Mass Survey. *Shigeru Hisamichi, Rikuro Sasaki, Nobuyuki Sugawara, Tooru Yanbo and Shoichi Yamagata* 439
Vitamin Profiles in Elderly Persons Living at Home or in Nursing Homes, versus Profile in Healthy Young Subjects. *Herman Baker, Oscar Frank, Inderjit S. Thind, Seymour P. Jaslow and Donald B. Louria* 444
Erythrocyte Folate Levels in Young and Old. *S. G. P. Webster and J. T. Leeming* 451
Simultaneous Development of Autoimmune Disease and Malignancy in Two Elderly Patients. *Eleanor A. Lipsmeyer* 455
Fluphenazine Enanthate in the Outpatient Treatment of Late Paraphrenia. *Murray Raskind, Carrol Alvarez and Susan Herlin* 459

Regulation of Bowel Function by a Laxative/Stool Softener Preparation in Aged Nursing Home Patients. *Vincent I. Maddi* 464
Rehabilitation of a Patient with Lower-Extremity Quadriprostheses. *P. Nagaraja Rao, Bernard A. Finnerty and Asa P. Ruskin* 469
Identification of Normal Aging and Disease-Related Processes by Health Care Professionals. *Carol J. Dye and Dorothy Sassenrath* 472
Central-Nervous-System Stimulants: Appraisal of Use in Geropsychiatric Patients. *Thomas Crook* 476
Books Received 478
The American Geriatrics Society—Announcements 480

NO. 11, NOVEMBER 1979

Update on the Male and Female Climacteric. *R. B. Greenblatt, C. Nezhat, R. A. Roesel and P. K. Natrajan* 481
Nutritional Deficiencies and Nutritional Support Therapy in Geriatric Cancer Patients. *Nathaniel Ching, Carlo Grossi, Helen Zurawinsky, Gulab Jham, John Angers, Christopher Mills and Thomas F. Nealon, Jr.* 491
Medical Views of Depression in the Elderly: Historical Notes. *Lewis R. Willmuth* 495
Effects of Antihypertensive Treatment on Left Ventricular Hypertrophy in Patients with Essential Hypertension. *Takashi Yamada, Tetsuhiro Kubota, Toyoshi Endo, Hidetada Komatus, Mitsufumi Oba, Hajime Nagata and Tomio Izumiyama* 500
Hypertension in the Elderly: Review of Therapy with a Hydroflumethiazide-Reserpine Combination. *Edward B. Elkowitz* 507
Rapid Slide Technique with Dextranomer Beads for Bacteriologic Assessment of Wounds in the Elderly: Comparison with Quantitative Biopsy Method. *John P. Heggers, Martin C. Robson, David H. Frank and Francis Ko* 511
Clinical Pharmacy Involvement in a Geriatric Health Clinic at a High-Rise Apartment Center. *Rebecca Chaney Eberhardt and Lawrence A. Robinson* 514
Familial Achalasia of the Esophagus in Mother and Son: A Possible Pathogenetic Relationship. *Kiran Chawla, Satish K. Chawla and Leslie L. Alexander* 519
Evaluation of the Effectiveness of Reality Orientation Classes in a Nursing Home Unit. *Terry Cornbleth and Catherine Cornbleth* 522
Recipients of the American Geriatrics Society Awards for 1979 525
The American Geriatrics Society—Announcements 528

NO. 12, DECEMBER 1979

Topical Fluorouracil Therapy for Precancers and Cancers of the Skin. *Stanley I. Cullen* 529
Prevention of Psychiatric Recidivism: A Model Service. *Alvin J. Levenson and Barbara J. Felkins* 536
Insomnia in the Elderly: Treatment with Flurazepam Hydrochloride. *James D. Frost, Jr. and Milton R. DeLucchi* 541
Erythrocyte Parameters in the Elderly: An Argument Against New Geriatric Normal Values. *Mark S. H. Htoo, Richard L. Kofkoff and Michael L. Freedman* 547
Epidemiology of Hyperuricemia in an Ambulatory Elderly Population. *Ronald B. Stewart, Richard L. Yost, William E. Hale and Ronald G. Marks* 552
Importance of a Regular Source of Medical Care Among the Elderly. *Michael B. Kleiman* 555
Avoiding Diagnostic Errors in Admitting Patients to a Nursing Home. *William D. Loeser and Emil S. Dickstein* 558
